JOSEPH SPRUCE, Treasurer.

MILFORD, March 20.

School Report

TO THE CITIZENS OF THE TOWN OF MILFORD:

I herewith present my third annual report of Schools for the year ending March, 1914.

TEACHING SERVICE

The teachers have given their best efforts to the schools and the children have responded with that degree of interest which insures success.

Miss Hennessy has worked under the disadvantage of an overcrowded schoolroom but the interests of the children have been promoted with unfailing tact and skill.

The standard of efficiency is being raised in the Intermediate school under the instruction and guidance of Miss Burnham who is willing to accept nothing less than the best work of the children.

The Grammar school is especially fortunate in having Miss Hall who understands perfectly the needs of the boys and girls entrusted to her care. Mrs. Elizabeth Donato who severed her connection with the schools of Milford at the close of the spring term, did excellent work in this school. An assistant teacher in Milford Grammar School would be a distinct advantage.

The school at Costigan has prospered generally during the year notwithstanding the fact that the patient endurance of teachers has not always been understood and appreciated by all concerned. Miss Madden, who had excellent methods of teaching children, taught the spring term of school. Mr. Allen maintained strict discipline during the fall term and Miss Pratt taught a successful winter term of school.

The special departments have reflected credit on both Miss Gould and Miss Pratt.

ATTENDANCE

Much credit is due those children who continued regular in attendance thruout the school year. Many of the cases of irregularity of attendance have been justified by circumstances, altho there is always the exceptional case which should not be tolerated.

REPAIRS

The seating capacity of the Primary school room is insufficient.

The blackboards in Costigan school room should be replaced by natural slate boards. Three slate boards are needed in the Intermediate schoolroom. Widths of not more than three feet cost 19c per square foot.

CONCLUSION

Thanking the Teachers, Members of the Superintending School Committee and all other persons who have cooperated with me, I respectfully submit this report.

GERTRUDE E. GIFFORD,
Sup. of Schools.

In submitting our annual report for year ending March 20th, 1915, we depart from our usual custom and take up in detail some of the work accomplished during the year.

At your annual meeting in March, 1914, you authorized the Superintending School Committee to erect a suitable school building at Costigan upon the lot purchased by them last year.

This work has been done under contract, by James A. McNaughton of Old Town. The sum of fourteen hundred dollars has been paid from the contingent fund, balance to be paid in whole or in part, from proceeds of sale of old school building.

The sum of three thousand dollars was appropriated for sidewalks. As the north half of the town pays about one-tenth of the tax, we thought it but fair to concede to the residents of Costigan, at least ten per cent of this fund and have built a granolithic walk from the Maine Central R. R. Station to the Higgins store. From the re-

mainder of the fund, we have built a granolithic walk on the Call road from Main street to the town lot known as the Pound lot also from the head of Davenport street to its intersection with Main street and connected Main and Davenport streets on Mill and Bridge streets. The work has been done by John Connors of Oldtown at a cost of \$1.35 per sq. yard, all work guaranteed for a period of five years against all defects of workmanship or material. We recommend a continuation of the Main street walk to the new bridge.

Under the present law, the municipal officers designate the State aid highway to be built in the following year and we have recommended to the State Highway Commission a continuation of the work already done on the Bradley road, the work this year having been completed to the buildings of Bowman Spencer. We trust that the town will vote to continue this work.

Under the law of 1913 we are entitled to state aid in the maintenance of state roads. We did not use our apportionment of this fund for 1914 but would recommend an appropriation equal to the amount set aside by the state for 1914 and 1915 and that the joint fund be used to repair the damage caused by digging up the streets for sewers. We would further recommend that an effort be made to do some permanent work each year on the town roads. We have been unable to do anything along this line in 1914 as it became necessary to rebuild two of our bridges, viz: the Costigan Brook bridge and the first bridge crossing Otter stream. We also found it necessary to purchase a new road machine in order to get good results from our work.

The most perplexing problem which confronted your municipal officers was the laying out and constructing a sewerage system for Milford Village. We employed Loud and Holmes of Bangor as engineers on the preliminary survey authorized at the annual meeting,

and after being duly authorized to construct a sewer according to plans drawn by them we retained them for engineering, overseeing and inspecting the work. Under their supervision, we have constructed two separate systems, one covering Main and Davenport streets with a branch on Mill street, said system having an 18 inch outlet into the Penobscot river below the dam, another beginning on the Call road opposite the Pound lot thence westward along said Call road to a man-hole opposite land of Decatur Madden, thence northerly and westerly across land of said Madden, land of the Jordan Lumber Co. and land of M. A. Austin to Penobscot river; connecting with this we have run an 8 inch pipe from a point nearly opposite the southwest corner of J. E. Dunphy's lot on Main street to a manhole nearly opposite the northwest corner of land of M. A. Austin. This sewer is all 8 in. and is not intended to take the surface water on Main street which is well cared for by side ditches and culverts. For purposes above mentioned we have crossed the land of the Bangor Power Co. and of Jordan Lumber Co. by consent. We have paid to John A. Littlefield the sum of twenty-five dollars (\$25) and to D. Madden and to M. A. Austin each, the cost of digging the trench connecting their dwellings with the sewer as the price of a right of way across said lots.

For the purpose of payment of the cost of construction of said sewer we have by authority of a vote of the town, issued the bonds of the town in the sum of fifteen thousand dollars, payable at the rate of one thousand dollars per year on the first day of October, interest at the rate of $4\frac{1}{2}$ per cent, payable semi-annually April 1st and Oct. 1st, principal and interest payable at the bank of the Eastern Trust and Banking Co. at Bangor. Bonds are held as follows: Eastern Trust and Banking Co. \$10,000.00; L. F. Mariner \$1,000; Mrs. Wm. Engel \$4,000.

As directed by vote of the town, we have paid from the balance in the treasury, all notes and bills outstanding at the beginning of the municipal year and hope to leave a good working balance for our successors.

We wish to thank the citizens for the uniform courtesy extended us during the year and the assistance rendered us in the performance of our official duties.

Respectfully submitted,

ALBION OAKES,	} Selectmen of

JOSEPH SPRUCE, Town Clerk.

MILFORD, March 20, 1915.

School Report

TO THE CITIZENS OF THE TOWN OF MILFORD:

I herewith present my fourth annual report of schools for the year ending March, 1915.

TEACHING SERVICE

The schools have prospered generally under the instruction and care of capable teachers who understood the needs of the children and worked faithfully to promote their interests.

INTERMEDIATE SCHOOL

Notwithstanding the fact that Miss Burnham's room was overcrowded she managed the situation with much skill and the usual high standard of work was maintained.

GRAMMAR SCHOOL

Miss Hall's work has been signally successful; her efforts in behalf of her school have been tireless and features have been introduced which have increased the efficiency of the work.

PRIMARY DEPARTMENT

Miss Hennessy is constantly raising the standard of the primary school through her skill and interest. The congested condition of the primary room made it necessary during the fall term of school to remove one class to the recitation room and employ an extra teacher. Miss Randall served efficiently and successfully in that capacity and rendered aid to the school work aside from her regular duties.

COSTIGAN SCHOOL

Miss Pratt has maintained excellent discipline in her school. The children seemed generally interested and co-operative. The school is now very pleasantly and comfortably established in the new school-house.

SPECIAL TEACHERS

The work of Miss Pratt and of Miss Gould in the special subjects (writing, drawing and music) has been faithfully discharged and worthy of appreciation.

ATTENDANCE

The schools have been unusually free from interruptions caused by contagious diseases. The general attendance has been good altho there have been unnecessary cases of absence. Regularity of attendance is essential to the child's success in his work.

NEW SCHOOL BUILDING

The Costigan school building is a modern structure pleasantly situated and properly lighted and furnace heated. The school room is artistic and convenient with two roomy cloak rooms opening into it between which is the main entrance.

CONCLUSION

Thanking the Superintending School committee, and others for co-operation, I respectfully submit this report.

GERTRUDE E. GIFFORD,

Supt. of Schools.

HARRY I. BARTLETT,

Town Clerk.

School Report

To the Citizens of the Town of Milford:

I have the honor to submit to you the annual report of schools for the Town of Milford for the year ending March, 1916.

TEACHING SERVICE

The schools have prospered under the care and instruction of competent teachers who were interested in the welfare of your children. Such teachers are worthy of the cooperation of parents and the appreciation of all citizens who would promote the interests of the community. Children unconsciously reflect the home attitude toward the school.

GRAMMAR SCHOOL

Miss Alice E. Hall who is principal of the building has conducted her work with her usual skill and success. The school is fortunate in having a teacher of Miss Hall's wide experience progressive methods and excellent judgment.

INTERMEDIATE SCHOOL

Miss L. Gertrude Burnham's experience in intermediate grades gives her many points of vantage in conducting this work which produce those results for which schools are maintained.

PRIMARY SCHOOL

Miss Helen Hennessy resigned at the close of the spring term after several years of successful service. Miss Effie Randall who had taught the sub-grade succeeded Miss Hennessy in the fall. Miss Randall has ably conducted this work.

SECOND GRADE

Miss Genevieve Violette began her work as teacher of the second grade at the beginning of the fall term of school. Miss Violette has displayed much tact in exercising discipline and skill as an inspector.

COSTIGAN SCHOOL

Miss Adria Pratt severed her connection with this school at the close of the spring term after several successful terms of school and was succeeded by Miss Lillian B. Doane who resigned during the winter term of school because of poor health. Most harmonious relations existed between the teacher and the children. Mr. Leroy Matthews succeeded to the work and has proven himself to be well adapted to the needs of the school.

I would suggest the erection of sanitary outhouses.

The new schoolroom is delightfully pleasant and the comfortable temperature which it was possible to maintain during the cold weather has been appreciated by both children and teachers.

SPECIAL TEACHERS

Miss Pratt and Miss Gould are reporting on the work of their departments.

It would be well if this work could be extended to Costigan since it increases to definitely the efficiency of children having such advantages.

CONCLUSION

Thanking all persons who have cooperated with me in the interests of the work, I respectfully submit this report.

GERTRUDE E. GIFFORD,
Supt. of Schools.

Report of the Principal

To the Supt and School Committee of the Town of Milford:

I hereby submit my report as principal of Milford schools.

For the past year I feel that the school has made marked advancement in many ways and that the year has been a successful one. We appreciate your faithful supervision and feel that teachers and school committee have worked together in harmony for the good of the school.

The attendance has been good considering the amount of sickness and the children have made marked advancement. Three pupils were promoted to the Grammar School from the fifth grade at the middle of the fall term and several from the Primary department have been advanced to the second grade during the year.

The great improvements in the basement have been highly appreciated and been kept in a sanitary condition.

A Grammar School Club has been organized during the year for the purpose of encouraging the pupils in speaking and debating, also to give them a social evening at the schoolhouse.

The school has been amply supplied with books and all school materials which greatly aid in the efficiency of school work.

The second grade room is in great need of a larger register as it is impossible to heat it on a cold day and new blackboards are needed in the Intermediate room. These improvements will greatly help out the welfare of the school.

Respectfully submitted,

ALICE E. HALL, Principal.

Report of Supervisor of Music

To the Members of the Supt. School Committee:

The congested condition in the third, fourth and fifth grades, make it quite impossible to carry on the music course intended for each grade.

In rooms so far apart in advancement it is difficult to reconcile the work to the difference in grades.

For instance, a lesson adapted to a third grade but given in a room containing a fourth and fifth, has a tendency to weaken the work in the upper grades, and vice versa.

In the other rooms the work is carried on as outlined for each grade, with good results.

For new books, I would like to introduce "The Progressive Music Series," from Silver, Burdett & Company.

MAUDE L. GOULD,
Supervisor of Music.

Report of Supervisor of Drawing and Penmanship

To the Superintendent of Schools of the Town of Milford:

In compliance with your request, I submit the following report of my work in the schools of Milford during the year:

The town having adopted no particular system of penmanship, I have based my instruction in that branch on the method and style of the system published by the A. N. Palmer Co.

Notwithstanding the crowded condition of the intermediate room, with the consequent lack of time for the drill and individual attention necessary for the production of good work—which condition has a very material bearing on the work in the more advanced grades—the results have been fairly good.

I would recommend the introduction of the text books of some system at the beginning of the coming year.

With the limited time at the disposal of both teachers and pupils, my work in drawing has of necessity been of the simplest nature. I have endeavored to cover a certain amount of ground in the teaching of form, proportion, and color; and when the time devoted to the subject is considered, the results have been proportionately successful.

As is usual in the cases of schools in which certain materials are provided by the pupils, the work has been somewhat retarded by many instances of failure on their part to make such provision. I would therefore recommend that those inexpensive necessities be supplied by the town.

In conclusion, I wish to thank both Superintendent and teachers for their unflinching courtesy, and assistance in my work.

SUSAN C. PRATT,

Supvr. Drawing and Penmanship.
